Learning , Sharing and Growing Together

## Discovery Wheel (5 Marks)

Please provide a neat copy of your discovery wheel here

After doing the discovery wheel activity what conclusions can you take from your own Discovery Wheel. (Hint: The discovery wheel should be circular like a wheel. If it is not circular what can you do to try and make your diagram more circular)

## Learning Styles (25Marks)

Read the following situations and decide what learning styles are being described. When you figure out what learning style she is using, please write that in the second column of the table below. Once you have determined the learning style, please list one piece of information from the statement to support your choice of learning style (18 marks)

Statement #1 – Omar likes to listen to music when he studies. When Omar is in class he likes to hear the instructions and the lessons from the teacher. He can accurately remember details of information he has heard in class.

Statement #2- Youseef takes frequent study breaks, and moves around when he is learning. He is much better at being active when learning

Statement #3- Zeina is lost and looking for directions. She runs into Tamima who shows her on a map exactly where she needs to go. Zeina understands these instructions because this is her preferred learning style. What type of directions did Tamima give to Zeina?

Statement #4- Instead of taking notes or listening to the teacher, Ramy likes to be involved in lab activities that can demonstrate the concepts that he is learning.

Statement #5- Ahmed has to put a Barbecue together. He takes out the instructions and follows them exactly how they are written. He tries to get his girlfriend to help him but it is easier for him to put it together by reading the instructions.

Statement #6- Dina likes to participate in classroom debates and discussions. She also reads her textbook out loud because she understands better when she hears things.

Statement #7- When Fawzy wants to find out some new information, he looks at pictures diagrams or maps.

Statement #8- To prepare for her driver's test, Megan liked to re read the driver's manual and look at the pictures in the book to refresh her memory.

Statement #9- When Tazzy is writing his books, he likes to have somebody read the chapter back to him because he understands better by listening to somebody rather than reading it on his own.

	What learning styles does Amanda present?	List one piece of evidence from the case study to support your choice for learning style.
1 VAK (Visual, Auditory, Kinesthetic)		
2 VAK (Visual, Auditory, Kinesthetic)		
3 VAK (Visual, Auditory, Kinesthetic)		
4 VAK (Visual, Auditory, Kinesthetic)		
5 VAK (Visual, Auditory, Kinesthetic)		
6 VAK (Visual, Auditory, Kinesthetic)		
7 VAK (Visual, Auditory, Kinesthetic)		
8 VAK (Visual, Auditory, Kinesthetic)		
9 VAK (Visual, Auditory, Kinesthetic)		

**Your own Learning Styles (7 marks)**

When you worked in class to find out your preferred learning styles, you found your own preferred learning style. Which learning style or styles did you find to be your strongest. What characteristics would this type of learner display. What can you do to try and improve the other two learning styles in this area.
